Movement, jumping, and hooking are all handled with just the mouse.

- **Horizontal Movement:** Move in the direction of the cursor.
- **Right Click:** Jump at any timing.
- **Left Click:** Fire the hook shot towards the cursor. Combine the hook with the "**Dash**" ability (activated by hooking floors or walls) to fly through stages at high speeds.

#### 2. Deep Time Attacks: Pursue the Ultimate Record!

There are countless routes through each stage depending on the player's ingenuity. By utilizing the hook's ability to latch onto almost anything, you may discover unexpected shortcuts.

#### 3. An Adventure to the Stars with Two Sisters

The protagonist "**Hook**" and her younger sister "**Pick**" embark on a journey to the stars to find their suddenly missing master. While Hook traverses the stages, Pick provides support via radio communication.

#### 4. A Full Remake Based on "New Super Hook Girl"

This title is a full remake of "New Super Hook Girl," a free game released in 2016 that won numerous awards. In addition to upgraded graphics and UI, new actions like the "**Dash**" and "**Wall Dash**" have been added to increase the depth of gameplay.
